Assignment 2: Syntax, String

Working Environments

- JDK 1.8
- Eclipse

Assignment Descriptions

Exersice 1: Write a program to solve quadratic equations: $ax^2 + bx + c = 0$

Exersice 2: Build a program with a text object that has the following properties and shapes

- The initialization method includes 1 parameter passed to enter data for the property
- Calculate the sum of the numbers in the series

Example: abcd1234khr89 => Total = 1234+89

- Find and print the characters with the smallest ASCII code
- Find and print the capital letters in the string
- Capitalize the first letters of the string
- Print the reversed string

Note: Need to build object(MyString) for the above problem
